THE STORY

Bergh General Contractors (BGC) is an owner-run general building and maintenance contracting business, established in 2016. What started out as a hobby a few years ago grew into a full-time dream job and a successful business for the owner, Quintin. As a talented and natural fixer of things, he realised a gap in the market where quality property maintenance and after-sales service was lacking.

They had a humble beginning where the team consisted of the owner and one staff member, with one vehicle and they could manage only one job at a time. Now BGC employs over a dozen skilled staff and has three maintenance

vehicles available to service various projects simultaneously.

Project Managers are appointed at each site to ensure that work goes ahead as planned, while the owner remains hands-on and present at all projects.

BGC has built exceptional relationships with local suppliers over the last 3 years, that enables them to complete jobs with quality products and supplies within the agreed timeline.

They operate in the whole Gauteng area and are based in the West Rand.

MISSION

To provide top-quality general property maintenance services to property owners, investors, and managers in our area of operation.
